March 21, 2016

Dear Admissions Committee,

It is with great pleasure that I recommend Vandana Singh to your Physician Assistant program for the upcoming matriculating class. I have had the opportunity to get to know Vandana in the last several months throughout her shadowing experience with me in the emergency department. It is clear that she has a passion for learning and is excited about her future as a physician assistant.

She is willing to sacrifice and make time to shadow me when she is available between school and a full time job, which shows me she is dedicated to reach her goal. She is enthusiastic while assisting patients when an opportunity arises and helps them feel more comfortable during their visit. She exemplifies compassion which is one of the most vital attributes that I believe a physician assistant must have. Vandana is dependable and always willing to help in setting up for a procedure, assisting patients, getting supplies and sometimes simply just listening and conversing with patients.

I see that Vandana possesses the qualities that every physician assistant should have, which will allow her to be an exceptional PA. Her drive to succeed, curiosity to learn and willingness to sacrifice are the reasons that I can confidently recommend her as a candidate for your PA program. It would be a pleasure to have her as a colleague and I believe she will be a great addition to the PA profession. Do not hesitate to contact me if you have any questions or concerns.

Sincerely,

David Alvarez, PA-C
Emergency Medicine
