General Information

You will be able to update and edit until you submit your application. Save changes as you work and return at any time to complete the application.

1 Discipline or field *

(Select one)

2 Type of Application *

Terminal research is for a masters' thesis or doctoral dissertation. Independent research is outside of the regular curriculum. (Select one)

3 This research primarily supports the applicant's: *

(Select one)

4 Applicant's Contribution *

The percentage of your contribution (or your team's contribution) to the whole project.

5 Human Participants *

Does this study involve research using human participants?

6 Animal Subjects *

Does this study involve research using animal subjects?

7 IRB Approval

If you answered yes to either, have you applied for **and received approval** from the appropriate institutional review board at Arizona State University? If not, please explain. (200 characters max)

8 What type of project are you requesting support for? *

(Select one)

Proposal Abstract

Please enter the abstract of your proposal, avoiding highly technical language. Your application should be written for an interdisciplinary peer review committee. You will be able to update and edit until you submit your application. Save changes as you work and return at any time to complete the application.

1 Abstract *

(1500 characters maximum)

Research Proposal Detail

Research Applicants: check the yes box and complete all fields on this page. **Media and Fine Arts Applicants:** click next and complete all fields on the next page. GPSA uses a blind peer review judging process. Your answers to these questions should not include any identifying information. Applications with identifying information will be rejected. You will be able to update and edit until you submit your application.

1 Is this a research grant for an empirical or investigative study?

(For a non-empirical, performance, demonstration, or media-related grant click next at the bottom of the page.)

2 Problem Issues

Critically evaluate the existing knowledge that relates to this proposal, including your own preliminary work. Identify new information your proposed research will accomplish with respect to deficits in knowledge. Briefly state the importance of this work. (4000 characters max)

3 Ethical Considerations

Describe in detail any special consideration you have given to all ethical issues involved in your proposed investigations. If applicable, indicate the nature of the informed consent. If none, please indicate. (1000 characters, max)

4 Hypotheses or Research Question(s)

Please list your hypothesis(es) or your research question. If none of the above, please indicate your intended goal(s) with this research. (1500 characters max)

5 Design, Methodology, Structure, Materials

Describe the design and procedures you will use to accomplish the specific aims and hypotheses listed. Justify the methods you propose to use detailing the strengths and possible limitations. Provide details about the analysis, equipment, facilities, participants, instruments, supplies, resources, and anticipated timetables. List any procedure or conditions that may pose a hazard to humans and describe what precautions you will employ to minimize risks to human health (i.e., IRB approval number). (4000 characters max)

6 Anticipated Problems

Describe briefly any difficult experimental problems that must be overcome in order to successfully accomplish the goals of this research project (i.e., travel, translations, hard to find resources). Discuss potential approaches to overcoming these anticipated difficulties. If none, please indicate. (1500 characters max)

7 Consequences or Implications

Describe any outcome you may anticipate. How will it benefit your field of research, what may be the expectation of future research? (1500 characters max)

8 Time Frame

Describe your expected time frame for the completion of the project in as much detail as possible. (1000 characters max)

9 References

List only those references cited in your proposal. References should be complete and follow the appropriate format for the applicant's field of study. To accommodate the blind review process, applicant should substitute the word "Author" in citations with identifying information (e.g., Author, 2003). (10,000 characters max)

Media and Fine Arts Proposal Detail

Media and Fine Arts Applicants: check the yes box and complete all fields on this page. **Research Applicants:** click next to continue. GPSA uses a blind peer review judging process. Your answers to these questions should not include any identifying information. Applications with identifying information will be rejected. You will be able to update and edit until you submit your application.

1 Is this a media or fine arts grant proposal?

For a non-empirical, performance, demonstration, or media-related project check yes.

2 Project Focus

Critically evaluate the existing knowledge/content that relates to your proposed work, including your own preliminary work in this area. Identify new information your proposed project will provide, with respect to deficits in the existing work or knowledge. State the importance of your work in the overall context of its field. (4000 characters max)

3 Objectives

What are the goals of your project? What is the basis for your work? (1000 characters max)

4 Present Training and Knowledge

Briefly explain how your background leads you to the proposed work and how it relates to your past work and other work in this field. (1000 characters max)

5 Uniqueness

How is this project going to be different from others in your field? How does it add to your field? (1500 characters max)

6 Medium, Equipment, Facilities, Instruments, Supplies, and Resources

Describe in detail the design and procedures you will use to accomplish the specific goals listed. Justify the methods you propose to use detailing their strengths and possible limitations. (1500 characters max)

7 Method of Presentation

How will you present your work? Be specific. (1500 characters max)

8 Time Frame

Describe your expected time frame for the completion of the project in as much detail as possible. (1000 characters max)

9 References

List only those references cited in your proposal. References should be complete and follow the appropriate format for the applicant's field of study. To accommodate the blind review process, applicant should substitute the word "Author" in citations with identifying information (e.g., Author, 2003). (10,000 characters max)

10 Portfolio Information

If you are submitting a portfolio, please provide (1) a summary of materials being submitted, (2) a list of materials included in the portfolio, (3) equipment required to present your portfolio or performance, (4) special instructions for handling your portfolio/performance presentation. (1000 characters max)

Blank Sample Application Form

Budget Justification

Please provide an itemized budget in priority order for your total amount requested. Accuracy and prioritization will help GPSA ensure that funds are available to researchers with the most need. GPSA may fund part of your grant if full funding is not available. For more information, refer to the [Program Guidelines](#).

1.1 Expense Description *

(200 characters maximum)

1.2 Amount *

2.1 Expense Description

(200 characters maximum)

2.2 Amount

3.1 Expense Description

(200 characters maximum)

3.2 Amount

4.1 Expense Description

(200 characters maximum)

4.2 Amount

5.1 Expense Description

5.2 Amount

6.1 Expense Description

(200 characters maximum)

6.2 Amount

7.1 Expense Description

(200 characters maximum)

7.2 Amount

8.1 Expense Description

(200 characters maximum)

8.2 Amount

9 Total Amount Requested from GPSA *

Up to \$750 for independent research, up to \$2000 for terminal research

10 Additional Funding Sources *

Describe amounts and source(s) of any additional funding. If none, enter "NONE". (800 characters max)

11 Future Funding Sources *

Describe any plans to apply for additional funding from other sources. If none, enter "NONE". (800 characters max)

Department Info.

Please provide information for your department chair or dean as well as your advisor, in the event that GPSA needs to contact these individuals.

1 Department Chair or Dean *

Include first and last name and title.

2 Department E-Mail Address *

GPSA will contact your department chair or dean.

3 Your Advisor's Name *

Include first and last name and title.

4 Advisor's E-Mail Address *

GPSA may need to contact your Advisor.

5 Advisor's Phone Number *

GPSA may need to contact your Advisor.

6 Professional/Research References *

Enter contact information for 2 to 4 professional or research references who are familiar with your current or past research experience. (300 characters max)

7 Current Graduate GPA *

When you are finished viewing the application, return to the [Action Menu](#).
