

Subject Informed Consent Form

Instructions

This form is used in research involving human subjects. Each subject interviewed as part of the research must provide consent prior to participating in the research.

Please provide the subject with a brief description of the nature and purpose of the research and the anticipated products, the researcher's name, address, phone number, and related information.

1. Print a copy of this form for each subject to be interviewed.
Note the content of this form can be adjusted to better reflect the research as necessary (a word format version is provided for this purpose).
2. Complete all the information on the form.
3. For every subject, have both the subject and the project researcher sign the form.
4. Send the completed forms (all together, once interviews are over) to the Chair of the Environmental and Resource Studies Program Ethics Committee,
Professor David Holdsworth:
