

Medical Assessment Form

Public Passenger Vehicle Driver

Transport
Roads & Maritime
Services

Important information

Roads and Maritime Services (RMS) and/or Transport for NSW (TfNSW) must be able to attest that all drivers of public passenger vehicles are fit and proper persons to hold an authority to drive such vehicles. This information is being collected in order to determine your fitness to drive a public passenger vehicle in accordance with the provisions of the *Passenger Transport Act 1990* and *Passenger Transport Regulation 2007*. If RMS cannot attest to you being a fit and proper person to hold an authority, the authority may be suspended, varied or cancelled or your application for authorisation may be refused.

You have a right to request access to the information collected by contacting the appropriate RMS and/or TfNSW office, the contact details are at the end of this form. RMS and/or TfNSW may disclose any health information received to another medical practitioner and/or specialist.

- Make an appointment with your doctor. As the examination may take longer than a routine consultation, please advise the receptionist when making the appointment that you are attending for this purpose.
- If you wear spectacles, hearing aids etc, please take them with you to the examination.
- Complete Parts A and B of this form, including signing the Declaration/Consent (Part C), and take it with you to the appointment so the doctor can complete Parts E, F and G.
- You are required by the Passenger Transport Regulation 2007 to advise RMS and/or TfNSW of any condition that may affect your ability to drive a public passenger vehicle. You should make the doctor aware of any medical condition/s you have so that your doctor can advise RMS and/or TfNSW, on your behalf using this form.
- If the medical assessment/report has been requested for a particular reason, you should let your practitioner know this reason.
- On completion of the examination the doctor will complete Parts E, F and G of this form, after which you should return the whole form to RMS and/or TfNSW. (Refer to Part D for lodgement details)
- Payment for any medical examination is the responsibility of the authority holder/applicant.

Part C - Driver / applicant declaration - to be completed by driver / applicant for authorisation

I hereby declare that questions 1 to 19 inclusive on this Medical Assessment (Medical Questionnaire) have been read by me. The answers given to the questions in this Medical Assessment (Patient Questionnaire) form are, to the best of my knowledge, true, correct and accurate in every detail. I have listed all relevant details of my medical history.

I consent to my medical practitioner providing my health information to RMS and/or TfNSW, or to a medical practitioner nominated by RMS and/or TfNSW.

Further, I give authority to RMS and/or TfNSW to obtain details of any matter which may assist in determining whether I meet the medical criteria outlined in the publication 'Assessing Fitness to Drive' (Commercial and Private Vehicle Drivers) March 2012.

Medical Assessment Form Public Passenger Vehicle Driver continued

Important information for Medical Practitioner

- The medical examination must be conducted in accordance with the commercial medical standards described in the "Assessing Fitness to Drive, Commercial and Private Vehicle Drivers (2012)". This publication is available from the web on www.austroads.com.au. It details the examination process, but the forms you must use are those provided by RMS and/or TfNSW, not those given as examples in the appendix to the standards. The criteria to be used are those detailed in the right hand column, marked "Commercial Standards".
- Upon completion of the examination complete Parts E and F and sign Part G of the form and give to the patient to return to RMS and/or TfNSW.
- You should retain a copy of this form for the patient's medical record together with detailed examination notes.
- Information not relevant to the patient's fitness to drive should not be forwarded to RMS and/or TfNSW.
- If you have doubts about the patient's fitness to drive, please give reasons in the comments section on the form, and arrange referral to a specialist for an opinion (*see below*).
- If you recommend consideration for a conditional Authority, you will need to make a referral to an appropriate specialist(s) and hand the Medical Specialist Referral form to the applicant/driver to take to the specialist(s) for completion.
- You may also recommend a practical driving test to assess fitness to drive. Please indicate this in the final section of the form, the Medical Assessment Certificate.
- If you have any doubts about the information required, or wish to discuss the case, please contact RMS and/or TfNSW.

Driving Assessment

There are two types of Driving Assessments:

- A Practical Driving Test can be conducted by an Accredited Driving Assessor. This type of assessment looks at a driver's ability to safely handle the type of vehicle in question, e.g. taxi, bus, motorcycle etc. **Note;** any cost involved is to be met by the driver.
- More complex assessments may be requested with a Driver Rehabilitation Unit, or by an accredited occupational therapist, if warranted. Normally this would only be required in cases where the driver has a disability which could compromise safe and effective control of the vehicle. Additional medical specialist advice may also be required, e.g. from an occupational or rehabilitation physician, in such cases. Your local office listed on page 3 can assist with locating the closest suitable provider for these assessments.
- The main aim of assessment by an occupational therapist or Driver Rehabilitation Unit is to assist people with impairments to resume or continue driving. There are two components of the assessment. The first part of the assessment aims to evaluate the person's difficulties. This involves an interview, vision screen, cognitive function test, assessment of physical strength, motor skills, reaction time, road law and road craft. The need for specialist equipment of vehicle modifications is considered at this time.
- The on-road assessment takes a standard approach but can be designed to meet individual needs. It is conducted in a dual controlled vehicle, accompanied by a driving instructor and where necessary set up with special requirements or modifications to meet the needs of the driver. The assessment is structured to assess the impact of injury, illness or the aging process on driving skills such as judgement, decision-making skills, observation and vehicle handling.

Conditions and Restrictions

- If appropriate, the medical practitioner may recommend conditions which may be imposed upon the driver authority and that go to driver competency or safety and allow the driver to continue to drive (e.g. corrective lenses, no night driving, additional mirrors).
- If the medical practitioner makes a recommendation to impose conditions, reasons must be provided.
- If the medical practitioner is of the opinion that vehicle modifications are necessary (e.g. hand controls, left foot accelerator), or a prosthesis is necessary to drive safely, or that a local area driving restriction is appropriate, the driver will need to demonstrate the ability to drive safely with these restrictions. In these cases a driver assessment is necessary.
