## Terms and Conditions

Please carefully read the information below as it explains important detail you need to know about the operation of your Revolving Credit Facility. The Revolving Credit Facility no longer requires you to make payment of the full outstanding balance on your credit card on your payment due date. You will now be able to make payment of a percentage of your outstanding balance which effectively allows your Credit Facility to revolve. Please note that for the purpose of your Revolving Credit Facility, "monthly installment", means a percentage of the monthly outstanding balance. This is indicated on your monthly account statement as payment due.

1. We will deduct the monthly installment from your nominated account given on your Auto Payment instruction which is compulsory.
2. Kindly note as the monthly installment only settles a percentage of your outstanding balance and does not settle the full outstanding balance on your credit card facility, interest will be charged on your outstanding balance less your monthly installment.
3. Interest will be charged from the date of each transaction on your account, on both the statement balance and on any new transactions made on the credit card (in other words, you will lose the interest-free period on these new transactions), until you settle the outstanding balance in full.
4. The interest charged will be at your prevailing interest rate.
5. You must pay the monthly installment by the due date shown on the monthly account statement.
6. Should you wish to pay any additional amounts in order to increase the available limit on the cardholder account please ensure the amount is paid directly into the cardholder/user account and not the control account. Failure to do so will result in the cardholder/user account available limit not increasing.
