

# BEHAVIOR TRACKING FORM

## LATENCY RECORDING

**NAME:** \_\_\_\_\_ **GRADE:** \_\_\_\_\_ **AGE:** \_\_\_\_\_ **DATE:** \_\_\_\_\_

**PERSON COMPLETING FORM:** \_\_\_\_\_ **POSITION:** \_\_\_\_\_ **LOCATION:** \_\_\_\_\_

**LATENCY:** The time it takes for a behavior to occur following the antecedent.

- In the **TARGET BEHAVIOR** section, WRITE THE BEHAVIOR YOU ARE TRYING TO MODIFY.
- In the **TIME OF DELIVERY OF ANTECEDANT** section, write the time of instruction, activity, etc.
- In the **TIME BEHAVIOR STARTED** section, write the time the target behavior began
- In the **LATENCY** section, calculate the time between the introduction of the antecedant and the time the behavior actually began.

| DATE | LOCATION | TARGET BEHAVIOR | TIME OF<br>DELIVERY OF<br>ANTECEDANT | TIME<br>BEHAVIOR<br>STARTED | LATENCY |
|------|----------|-----------------|--------------------------------------|-----------------------------|---------|
|      |          | 1.              |                                      |                             |         |
|      |          | 2.              |                                      |                             |         |
|      |          | 3.              |                                      |                             |         |
|      |          | 4.              |                                      |                             |         |
|      |          | 5.              |                                      |                             |         |
|      |          | 6.              |                                      |                             |         |
|      |          | 7.              |                                      |                             |         |
