

Work Clearance Request

Requested by: _____
(Please print)

Date requested: _____

Address: _____

Date marked: _____

Phone Number: _____

☐ **Satellite Dish Request**

☐ **Fence Request**

Lines will be marked each Friday (weather permitting). You will need to contact OKIE ONE at 1-800-522-6543 to have the phone and cable lines located. Call at least 48 hours in advance not to include Saturday or Sunday. The phone and cable lines must be located prior to our Balfour Beatty Communities team locating the water, gas and electric lines. Please provide and attach a sketch of where you would like your fence/satellite dish installed.

Sketch: ☐ **Approved** ☐ **Resubmit**
Area Marked: ☐ **Yes** ☐ **No**

If not marked, reason not marked:

Fence Guidelines:

1. Fence will be limited to four feet in height.
2. Fence will be in occupant's individual yard boundaries extending no more than 50 feet in length from rear of house in space allowed.
3. Must insure that there is 12 feet between brown utility boxes and fence for utility access.
4. Fences will not be within 4 feet of water, gas or sewer line valves.
5. A minimum of 2 feet clearance is required between air-conditioning unit and fence line.
6. Fence will not be attached to house or patio fence trees or base boundary fence.
7. Fence can only go to 5 feet out on one side to allow a gate and must be kept in line with back of house unless rear garage door entry is wished to be access way to back yard. In this case, fence can go just enough so that it clears the door only. No fence can be brought to the front of the house.
