## About Eden Threads

Initiated by an Eden parent with assistance from a friend with more than twenty years of experience in building screen printing businesses, Eden Threads:

- Promotes teamwork. It can take up to 8 people to work on the printer and each person has their own responsibility.
- Promotes diversity. There are many aspects to screen printing and some that take very little expertise, for example folding shirts, cleaning and reclaiming screens, etc. This allows individuals with greater need for assistance to perform meaningful tasks with little supervision.
- Promotes self-reliance. Screen printed products provide a significant profit margin. T-shirts and related products can be sold to schools, sports teams, fundraising events, etc. ultimately coming back in the form of wages for our adult participants.
