Date

\_\_\_\_\_  
UM ID

\_\_\_\_\_  
Email

\_\_\_\_\_  
Phone Number

Papers qualifying for this requirement must demonstrate the following characteristics:

|                                                                                                                                                                   | <b>Present</b>           | <b>Absent</b>            |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| A. Project is conducted with a student as sole author of the project                                                                                              | <input type="checkbox"/> | <input type="checkbox"/> |
| B. Evidence that the paper was the product of a research project requirement in a master's degree program. Course papers are not acceptable.                      | <input type="checkbox"/> | <input type="checkbox"/> |
| C. A comprehensive report that includes the following components:                                                                                                 |                          |                          |
| • Specific questions or aims                                                                                                                                      | <input type="checkbox"/> | <input type="checkbox"/> |
| • A comprehensive, relevant literature review                                                                                                                     | <input type="checkbox"/> | <input type="checkbox"/> |
| • Description of methods used to collect data                                                                                                                     | <input type="checkbox"/> | <input type="checkbox"/> |
| • Substantive data analysis conducted on data collected by the student for the unique project or data analyzed in conjunction with the advisor's research project | <input type="checkbox"/> | <input type="checkbox"/> |
| • A comprehensive discussion of the study findings                                                                                                                | <input type="checkbox"/> | <input type="checkbox"/> |
| D. Quality expected of a graduate student:                                                                                                                        |                          |                          |
| • Clarity                                                                                                                                                         | <input type="checkbox"/> | <input type="checkbox"/> |
| • Comprehensiveness                                                                                                                                               | <input type="checkbox"/> | <input type="checkbox"/> |
| • Logic                                                                                                                                                           | <input type="checkbox"/> | <input type="checkbox"/> |
| • Relevance to nursing                                                                                                                                            | <input type="checkbox"/> | <input type="checkbox"/> |
| E. The document adheres to an accepted manual of style, such as APA                                                                                               | <input type="checkbox"/> | <input type="checkbox"/> |

Additional comments regarding the research project: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

The student's program planning committee has reviewed the research report completed during the student's previous graduate work and have verified that the project meets the requirements for the first research project in the doctoral program.
