To whom it may concern:

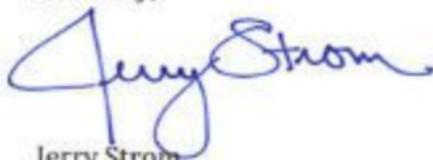

It is with great pleasure that I write a letter of recommendation for Jessica Nelson. Jessica exemplifies all the qualities and intangibles that any future college coach or employer looks for in an individual. Not only is she a good student who is held in highest esteem by her teachers, it's her other qualities that separate her from the norm.

I have had the distinct advantage to work with college students and athletes for 32 years at the University of Iowa. During this time you could always tell the individuals who display those intangibles to be successful: the passion to "be the best", set goals, commitment and the pursuit of excellence. These are the intangibles I see in Jessica and when you meet her, you will immediately understand why she will make a tremendous asset to any college or team.

It is without hesitation that I recommend Jessica to any college of her choosing. She will set the example for all future students to emulate.

Please feel free to contact me anytime if I can answer any questions regarding the qualities of Jessica Nelson as she applies to college.

Sincerely,

Jerry Strom
