To Whom It May Concern:

I am pleased to write this letter of recommendation for Holly Raines, who has worked with me at Center Academy as a middle school teacher for the past three years. During her term of employment, she has taught all subject areas in a self-contained classroom for middle school. As always, she has shown her capability and knowledge in each.

Ms. Raines is to be commended for her professional concern for her students, and quality of instruction. She has made an outstanding effort to vary course material and present it in different and unusual ways. She is receptive to new ideas and constantly looks for innovative methods to present course content. I have found Ms. Raines to be uniquely resourceful and adaptive.

Student respect is obvious in her classroom. She cares deeply for her students, and they look to her for approval and guidance. Her approach to teaching has generated a warm and close rapport with her class as well as with our faculty. She has also been an enthusiastic participant in various extra-curricular activities.

As an educator for 35 years and one who is profoundly interested in developing high quality teachers, I strongly endorse Holly Raines.

Sincerely,
Valerie Criteri
