To Whom It May Concern,

I am pleased to write a recommendation for [Name of student] who is applying for an admission to the School of Medicine of the [State name of University]. I have had the opportunity to see talented medical students over the years being a professor in [Name of school where the student had undergraduate degree] and I can proudly say that [Name of student] is one of them.

He/She has been a student in my [Name of class handled] class and I can attest to his/her brilliance and strong work ethics. In fact, in the classes group activities, he/she is one of my students who has a high command in basic sciences resulting to his consistent positive performance and does not stop in improving himself/herself reviewing topics he/she is not too familiar with. In fact, he exceeded expectations during his research study defense earning respect from his/her classmates, as well as, the academic panel who reviewed his/her research paper. Moreover, he/she is consistently lauded for being articulate as shown in class presentations for his/her simple yet effective way of presenting clinical topics.

In addition to his/her exemplary academic performance in standardized examinations, [Name of student] is a team player and helps his/her classmates understand difficult concepts as he/she discards the idea of the monopoly of intelligence as he/she believes that it should be shared.

In conclusion, [Name of student] is not only academically gifted but also very hardworking and compassionate hence, I give him/her highest recommendation. If you have further queries or verification regarding his/her qualifications and background, please contact me at [Provide contact number].
