

**ALL INDIA INSTITUTE OF MEDICAL SCIENCES**

**BHUBANESWAR**

**DEPARTMENT OF ANATOMY**

**BODY DONATION PROGRAMME**

**"Don't take your organs to heaven  
with you; Heaven knows we need  
them here."**

## **The Policies and Procedure of Body Donation:**

### **Who can donate?**

Any person over 18 years of age can arrange to donate her/his body for medical education and research

### **When Death occurs:**

- Death must be certified by the registered medical practitioner.
- It is the responsibility of the relatives of deceased to inform AIIMS about the death
- The family and friends of the deceased are requested to bring the body with death certificate to AIIMS, if the donation is accepted.
- Please note that the donation of the body may not be accepted, unless it is in a useful condition, at the time of death, for the purpose of medical education/research.

### **After the donation:**

- The body may either be used immediately or preserved for various period of time for future use.
- After full utilization, the remains will be scientifically disposed.
- If requested, family members may be allowed see the body after donation for up to three days only, after which it is not possible to show the body or handover the remains there of.

- Hair/nails may be collected at the time of donation only, if desired by the family, for the purpose of any religious rituals.
- Donation of body is not accepted if it is decomposed, autopsied or death from contagious disease like AIDS and unnatural causes (Poisoning, accidents, suicide)

**Requirement for Registration:**

1. Body Donation Form
  2. Affidavit No-1 to be filled by the donor on Rs.10 stamp page. (Notarised)
  3. Affidavit No-2 to be filled by the family members (NOC) on Rs.10 stamp page. (Notarised)  
(Download the "Body donation" form, and "Affidavit No-1 & 2" from below link.)
  4. One Post card size family photo (colour photo)
  5. One passport size photo of donor (colour photo)
  6. The forms, duly filled should be returned to **The Department of Anatomy, AIIMS, Bhubaneswar – 751019.**
  7. A "Body Donor Card" with a registration number will be issued to the donor
- **Unregistered donations will also be accepted by the department**

## **To a Medical Student**

*This is my body,  
the shell of my being,  
which is given to you  
in final offering  
to the world.*

*I share the elements of life.  
From these old bones,  
these ligaments,  
my sinews and my nerves,  
may that life force  
that ran in me  
shine forth once more  
and pass to you  
the knowledge  
and the power  
that help sustain  
the miracle of life.*

### **Importance of Body Donation:**

Voluntary Body Donation is a programme wherein the general population can will their bodies to serve the purpose of medical education and scientific studies. The public is providing the most important resource needed for innovation in medical practice. Primarily, the body donation under this programme helps the medical student to learn the relations of human anatomical structures and development of psychomotor skills by dissection. Though, with improvement in technology many assisted models have developed in the form of mannequins and simulations, none of these can be a replacement to a realistic cadaver. Each cadaver is like a new source of knowledge as many variations can be identified which could help the clinicians.

In addition to this, these donations help the surgeons to experiment innovative surgical skills and procedures in form of cadaver labs, workshops, thus giving them an opportunity to explore in a realistic manner. Another innovation evolved are the cadaver banks like bone, skin and eye bank which are collections of these samples that later can be used for conducting molecular research and cadaver grafting.

With all these uses culminating into the service of humanity, body donations are precious gifts to the humankind.

Needless to say, that the concept  
campaign by **Live WellLeave Well** society  
could contribute immensely for the cause.

With the rising number of medical colleges  
and scarcity of cadavers Voluntary Body Donation  
is definitely a saviour and a ray of hope for the  
betterment of medical science

*We thank you for your interest in this  
most generous gift to medical education and  
research.*

*Please share the information in this  
brochure with your family and friends who  
may be asked to act on your behalf.*
