To Whom It May Concern,

I would like to take opportunity to recommend The Mountain Report team for their dedication to producing a quality television show that is interesting, fun, and timely!

The team is extremely easy to work with! We simply provide them with a couple of ideas on major visuals we would like to showcase for the season, and they script and do the rest. They are always open to suggestions and in the rare case – take criticism very well. The production capabilities are without a flaw and the filming equipment they use is state of the art.

We have worked with Kevin Friend and The Mountain Report crew for 15 years and we have never been disappointed.

If you would like to discuss their performance further, please call me at 802-644-1115.

Sincerely,

Nancy Illemann Rock
