

Move On When Ready – Dual Enrollment Program

Student Disclaimer Form

I request permission to participate in the Move On When Ready program at Atlanta Technical College. I have received the counseling services regarding participation, including program guidelines and the student/parent responsibilities. My parents/guardians and I clearly understand what is expected of me to be able to enroll and to continue my participation in this program.

Any expenses not covered will be the student/parent/guardian responsibility unless the school district has agreed to incur the cost.

I also understand that participating students must be ninth through twelfth graders and must meet all the college's eligibility requirements for participation (for example, must meet the minimum scores on the college's placement exam or have eligible ACT/SAT scores).

I understand Atlanta Technical College is responsible for honoring college credit only. It is up to the receiving high school and high school guidance counselor to verify and confirm that high school credits/courses are in compliance with high school courses and graduation requirements. I understand it is my responsibility to obtain a college schedule and to notify my high school of my college acceptance. I must also notify the high school if my enrollment status at the college changes.

I understand I must make a "C" or better in my ATC courses in order to take the next ATC level course. A "D" may constitute a passing grade at the high school level; however, I understand that a "D" or an "F" WILL NOT allow me to take the next course level at the college.

I give ATC permission to contact me at the telephone numbers provided, including text message or voice.
