

## Calculator Use Form

In order to make use of the class set of TI-Nspire calculators both students and parents should be aware of the following:

- Use of the calculators is a privilege and can be taken away for misuse, mistreatment, or vandalism to the calculator
- Students will be required to checkout a calculator each day they wish to use one from their teacher. Each teacher will have their own checkout system.
- Students assume responsibility for the calculator while it is in their possession. This means the student will receive the appropriate discipline for any damage done to the device, inappropriate language left on the device, or if the device goes missing.

**This form must be signed by both the student and parent and returned to the student's Algebra teacher.**

Students must provide four (4) AAA batteries to their teacher before the calculator will be released for use.

I acknowledge that I have read and understand these rules and procedures as they pertain to the use of calculators in Mrs. Guest's room. I also understand that I assume responsibility for the proper use and care of the calculators and that failure to care for the devices can result in discipline measures being taken by both Mrs. Guest and the appropriate Assistant Principal.
