HEALTH DECLARATION FORM

The New Zealand Qualification Authority Code of Practice for the Pastoral Care of International Students requires signatories to be provided with a declaration of existing health conditions of homestay applicants as part of the application process.

A health declaration is required to determine whether an applicant or family member has any health conditions that:

- a) could affect their ability to provide accommodation for an international student
- b) international student should be made aware of.

Health conditions may not automatically exclude applicants from hosting. NorthTec will consider the potential significance of any health condition on the applicant's ability to carry out the responsibilities of the role.

Declaration of health conditions such as epilepsy, asthma and serious allergies enables NorthTec to make students aware of any risk of episodes and to educate them as to what action to take.

All information provided below will be treated as confidential to relevant parties only.

Name:

Condition/s:

I declare that all existing medical conditions have been listed above.
