Give permission for any photographs, video or interviews of me made by REEL Epics Productions for the SVRI Being Heard project or any media prior to and during the SVRI Forum 2017, 18-21 September, 2017 to be used for advocacy, news stories and human interest stories on the internet, television or in print publications. These materials will only be used to promote the Being Heard project and SVRI Forum and contribute to creating more awareness on the issue of youth participation in research and events on sexual violence, intimate partner violence and violence against children and young people.

In return, all media interviews will be conducted in consultation and, if requested by me, in the presence of my NGO counterpart and a member of the media team working at the SVRI Forum. I will have the right not to respond to any questions that I don't want to answer.
